1. NATURE AND CONTINUNACE OF OPERATIONS

Goldsource Mines Inc. (the "Company" or "Goldsource") is incorporated under the jurisdiction of the Province of British Columbia, Canada pursuant to the British Columbia Business Corporations Act. All dollar amounts are expressed in Canadian dollars unless otherwise indicated. The head office and principal address of the Company is 570 Granville Street, Suite 501, Vancouver, BC, Canada, V6C 3P1. The address of the Company's registered and records office is 19th Floor, 885 West Georgia Street, Vancouver, BC, Canada, V6C 3E8. The Company is listed on the TSX Venture Exchange under the symbol GXS.

The Company is a Canadian resource company engaged in exploration and development. Goldsource is working to advance its 100%-owned Eagle Mountain gold project in Guyana. Goldsource's other mineral interests presently consist of coal exploration properties located in Saskatchewan, referred to as the "Border Coal Project".

The Company currently has no operations from which to derive revenues, has incurred net losses of $494,541 for the six month period ended June 30, 2014 (June 30, 2013 - $397,848), and has an accumulated deficit of $34.8 million as at June 30, 2014 (December 31, 2013 - $34.3 million). These condensed consolidated interim financial statements have been prepared on a going concern basis, which assumes the realization of assets and liquidation of liabilities in the normal course of business. The Company's ability to continue as a going concern is dependent on the ability of the Company to raise debt or equity financings, and the attainment of profitable operations. The Company will need to raise the necessary capital to meet its planned business objectives. During the six month period ended June 30, 2014, Goldsource completed an equity financing (note 10) for gross proceeds of $2.4 million which will be used to advance the Eagle Mountain gold project and for general working capital purposes.

These condensed consolidated interim financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities, or the impact on the statement of operations that might be necessary should the Company be unable to continue as a going concern, and such adjustments could be material.

2. BASIS OF PRESENTATION

Statement of Compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB"). These condensed consolidated interim financial statements should be read in conjunction with Goldsource's consolidated financial statements for the year ended December 31, 2013, which include information necessary or useful to understanding the Company's business and financial statement presentation. In particular, the Company's significant accounting policies, use of judgments and estimates were presented in Note 2 of these consolidated financial statements, and have been consistently applied in the preparation of these condensed consolidated interim financial statements, except for those policies which have changed as a result of the adoption of new and amended IFRS pronouncements effective January 1, 2014 (see Note 3).

Basis of Preparation

These condensed consolidated interim financial statements have been prepared on a historical cost basis, except for certain financial instruments which are measured at fair value, and were authorized for issue by the board of directors of the Company on August 21, 2014.

These condensed consolidated interim financial statements include the accounts of Goldsource and its wholly-owned subsidiaries Eagle Mountain Gold Corp. (incorporated under the laws of Canada), Stronghold Guyana Inc. (incorporated under the laws of Guyana), and Tinto Roca Exploracion S.A. de C.V. (incorporated under the laws of Mexico). All intercompany balances, transactions, income and expenses, profits or losses have been eliminated on consolidation.

Goldsource consolidates subsidiaries where the Company has the ability to exercise control. Control is achieved when the Company has the power to govern the financial and operating policies of the entity. Control is normally achieved through ownership, directly or indirectly, of more than 50 percent of the voting power. Control can also be achieved through power over more than half of the voting rights by virtue of an agreement with other investors or through the exercise of de facto control.

Company	Ownership%	Place of Incorporation	Principal Activity

Stronghold Guyana Inc.	100%	Guyana	Exploration and Evaluation
Tinto Roca Exploracion S.A. de C.V.	100%	Mexico	Exploration and Evaluation

3. CHANGES IN ACCOUNTING POLICIES

The Company has adopted the following new standards, along with any consequential amendments, effective January 1, 2014. These changes were made in accordance with the applicable transitional provisions.

IFRS 8 – Operating Segments:
Amended to require disclosure of the judgments made by management in aggregating operating segments, including a description of the segments which have been aggregated and the economic indicators which have been assessed in determining that the aggregated segments share similar economic characteristics. IFRS 8 was early adopted effective January 1, 2014 and had no significant impact on the Company's condensed consolidated interim financial statements.

IAS 32 – Financial Instruments: Presentation ("IAS 32")

The IASB amended IAS 32, "Financial Instruments: Presentation" to clarify certain aspects because of diversity in application of the requirements on offsetting, focused on four main areas:

- the meaning of 'currently has a legally enforceable right of set-off';
- the application of simultaneous realization and settlement;
- the offsetting of collateral amounts; and
- the unit of account for applying the offsetting requirements.

IAS 32 was adopted effective January 1, 2014 and had no significant impact on the Company's condensed consolidated interim financial statements.

IAS 36 – Impairment of Assets ("IAS 36")
The amendments to IAS 36 restrict the requirement to disclose the recoverable amount of an asset or Cash Generating Unit ("CGU") to periods in which an impairment loss has been recognized or reversed. The amendments also expand and clarify the disclosure requirements applicable when an asset's or CGU's recoverable amount has been determined on the basis of fair value less cost of disposal. IAS 36 was adopted effective January 1, 2014 and had no significant impact on the Company's condensed consolidated interim financial statements.

IFRIC 21 – Levies ("IFRIC 21")
An interpretation of IAS 37 – Provisions, Contingent Liabilities and Contingent Assets ("IAS 37"), on the accounting for levies imposed by governments. IAS 37 sets out criteria for the recognition of a liability, one of which is the requirement for the entity to have a present obligation as a result of a past event ("obligating event"). IFRIC 21 clarifies that the obligating event that gives rise to a liability to pay a levy is the activity described in the relevant legislation that triggers the payment of the levy. The adoption of IFRIC 21 had no significant impact on the Company's condensed consolidated interim financial statements.

4. NEW STANDARDS NOT YET ADOPTED

IFRS 9 – Financial Instruments ("IFRS 9")
In November 2009, the IASB issued IFRS 9 Financial Instruments as the first step in its project to replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. The basis of classification depends on an entity's business model and the contractual cash flow of the financial asset. Classification is made at the time the financial asset is initially recognized, namely when the entity becomes a party to the contractual provisions of the instrument.

IFRS 9 amends some of the requirements of IFRS 7 Financial Instruments: Disclosures, including added disclosures about investments in equity instruments measured at fair value in other comprehensive income, and guidance on financial liabilities and derecognition of financial instruments. The amended standard is effective for annual periods beginning on or after January 1, 2018, with earlier adoption still permitted.

(Expressed in Canadian Dollars)

4. NEW STANDARDS NOT YET ADOPTED (continued)

IAS 16 – Property, Plant and Equipment ("IAS 16") and IAS 38 – Intangibles ("IAS 38")

IAS 16 and IAS 38 were issued in May 2014 and prohibit the use of revenue-based depreciation methods for property, plant and equipment and limit the use of revenue-based amortization for intangible assets. These amendments are effective for annual periods beginning on or after January 1, 2016 and are to be applied prospectively.

The Company has not yet completed the process of assessing the impact that IFRS 9, IAS 16 and IAS 38 will have on its condensed consolidated interim financial statements, or whether to early adopt these new requirements.

5. PURCHASE OF MINERAL PROPERTIES

Eagle Mountain Gold Project

On February 28, 2014, Goldsource and Eagle Mountain Gold Corp. ("Eagle Mountain") completed their combination as jointly announced on November 26, 2013. As a result, the shareholders of Eagle Mountain became shareholders of Goldsource and a corporation into which Eagle Mountain was amalgamated became a wholly owned subsidiary of Goldsource. Pursuant to the combination, each common share of Eagle Mountain has been exchanged for 0.52763 of a common share of Goldsource. Accordingly, a total of 29,173,691 common shares of Goldsource were issued.

The Company's combination with Eagle Mountain is being accounted for as an acquisition of net assets of Eagle Mountain. Total consideration for the acquisition and the allocation of the consideration to the assets and liabilities acquired are as follows:

Consideration		
Value of 29,173,691 common shares issued :	$	4,084,317
Finder's fee:		35,000
Fair value of options and warrants:		853,188
Transaction costs :		331,065
Total consideration value:	$	**5,303,569**
Net assets acquired		
Cash	$	36,711

Equipment		70,707
Exploration and evaluation assets		5,722,081
Accounts payable and accrued liabilities		(801,666)
Net assets acquired	$	**5,303,569**

As part of the transaction, all outstanding Eagle Mountain share purchase options and warrants were exchanged at the combination exchange ratio of 0.52763 resulting in 1,340,182 new Goldsource options and 16,981,001 new Goldsource warrants exercisable for common shares of Goldsource at exercise prices ranging from $0.16 to $3.79 per share. The options and warrants issued by Goldsource were on the same terms and conditions as those exchanged by the Eagle Mountain holders. As a result of these exchanges, Goldsource recorded the fair value of the options ($60,836) and fair value of the warrants ($792,352) as a cost of the purchase.

The fair value of the new Goldsource options and warrants were determined at February 28, 2014, using a Black-Scholes model with the following weighted average assumption:

	Options	Warrants
Risk-free interest rate	1.29%	1.19%
Expected dividend yield	0%	0%
Expected stock price volatility	80.49%	82.07%
Forfiture rate	1%	0%

Changes in marked-to-market value	(21,750)	(47,250)
Closing balance	$ 50,250	$ 27,000

1) As part of the combination between Goldsource and Eagle Mountain (note 5), Goldsource acquired 300,000 common shares of Para Resources Inc. (formerly Kensington Court Ventures Inc.) an exploration staged company listed on the TSX Venture Exchange.

Under IFRS, held-for-trading securities are to be recorded at fair value at each reporting date and the resulting gains or losses are to be included in the results for the period. For the six month period ended June 30, 2014, the Company's 675,000 Westcore and 300,000 Para Resources Inc. common shares had an unrealized marked-to-market loss of $21,750 (2013 – $47,250).

8. MINERAL PROPERTIES – EXPLORATION AND EVALUATION ASSETS (continued)

Eagle Mountain Gold Project - Guyana

In connection with the acquisition of Eagle Mountain, the Company acquired a 100% interest in the Eagle Mountain gold project located in Guyana. On March 6, 2014, the Company executed an Amendment Agreement with Omai Gold Mines Ltd. ("OGML"), a subsidiary of IAMGOLD Corporation with respect to the Eagle Mountain Gold Project (the "Project") in Guyana. The summary of amending terms includes:

I. Goldsource will issue to OGML 3,389,279 common shares; (**issued, note 10**)

II. Goldsource shall pay OGML, US$3,025,500.94 ("Initial Payment") in cash or, at Goldsource's option in common shares of Goldsource, at a price per share equal to a five percent (5%) discount to the Volume Weighted Average Price ("VWAP") of Goldsource's common shares for the twenty trading days prior to issuance, upon the earlier of:

   a. If average market price of gold is US$1,400/oz. or higher upon achieving total production of 40,000 ounces of gold, then the Initial Payment is due 90 days after 40,000 ounces have been produced, otherwise payment to be made 90 days after 50,000 ounces produced from the Project, or

   b. Ninety days after having completed one year of gold production under a large scale Mining License issued by the Guyana Geology and Mines Commission ("GGMC"), or

   c. Five days after the date on which the 20-day VWAP of Goldsource exceeds $0.75 per share, provided such date is not earlier than March 1, 2015.

III. Goldsource shall pay OGML, an additional US$5,000,000 ("Final Payment") in cash or at Goldsource's option, US$2,500,000 cash and US$2,500,000 in common shares of Goldsource, at a price per share equal to a five percent (5%) discount to the 20-day VWAP of Goldsource's common shares. The Final Payment shall be made one year after the earlier of:

   a. The payment set out in, ("II a.") above has been made, or

   b. After having completed one year of gold production under a large scale Mining License issued by the GGMC.

The Company pledged a $206,825 (US$194,000) reclamation site deposit to the Guyana Geology and Mines Commission for exploration permits on the Eagle Mountain property. The deposit is secured by a non-interest-bearing bond.

Border Coal Project - Saskatchewan

As at June 30, 2014, the Company holds 34 coal mineral licenses comprising 16,074 hectares. The Company is holding the Border Coal Project on a care and maintenance basis until such time as a suitable market and/or applicable conversion process can be identified or until such time as an appropriate partner can be identified to advance the project. During fiscal 2013, the Company recorded an impairment charge of $3,800,000 with respect to the project, bringing the book value of the asset to zero, as the Company is currently pursuing opportunities in commodities other than coal.

Minera Pacific Inc. a Company controlled by two officers is entitled to receive a $700,000 (Feasibility Payment) in the event the Company completes an independent positive feasibility study on the Border Coal Project and entitled to a 2% gross overriding royalty on commercial production.

11. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS

The Company's financial instruments consist of cash, short term investments, held-for-trading securities, taxes receivable, deposit and accounts payable and accrued liabilities. The carrying value of taxes receivable and accounts payable and accrued liabilities approximate their fair values due to the short periods until settlement.

The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability (for example, interest rate and yield curves observable at commonly quoted intervals, forward pricing curves used to value currency and commodity contracts and volatility measurements used to value option contracts), or inputs that are derived principally from or corroborated by observable market data or other means. Level 3 inputs are unobservable (supported by little or no market activity). The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. The Company's cash, short term investments and held-for-trading securities are measured using level 1 inputs.
