NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited – Prepared by management)

June 30, 2004

1. NATURE OF OPERATIONS

Goldsourc e Mines Inc. (the “Company”) was incorporated under the laws of the Province of British Columbia under the name ERI Ventures Inc. (formerly Enterprise Resources Inc.). On September 9, 1997, ERI Ventures Inc. was continued under the laws of the Yukon Territory and changed its name to Antam Resources International Ltd. On June 8, 1999, Antam Resources International Ltd. consolidated its common shares on the basis of one new share for seven old shares and changed its name to International Antam Resources Ltd. At a Special Meeting of shareholders held on December 23, 2003, approval was received to change the Company’s name to Goldsourc e Mines Inc.

Until September 30, 2003, the Company’s principal business activity was the production and sale of gold and silver from its Cikidang mine in Java, Indonesia. The Company was also involved in the exploration and development of mineral properties in Indonesia. Effective September 30, 2003 the Company disposed of all its Indonesian assets and operations [see note 3] and its principal business activity became the exploration for and the development of precious metal deposits in North, South and Central America. The ability to recover the investment in these properties is dependent upon the Company obtaining the necessary financing to complete exploration, development and construction of processing facilities, obtaining government approvals and attaining future profitable production of the mineral resources, if any or the receipt of proceeds from the disposition of the interest therein.

These consolidated financial statements have been prepared using Canadian generally accepted accounting principles applicable to a going concern and do not reflect adjustments related to the carrying values and balance sheet classification of assets and liabilities that would be necessary, were the going concern assumption inappropriate.

These interim financial statements have been prepared using the same accounting policies as used in the financial statements for the year ended December 31, 2003 and should be read in conjunction with the audited financial statements.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of consolidation

The consolidated financial statements include the accounts of the Company, its wholly-owned subsidiaries, 538114 B.C. Ltd. and Nusantara Resources Inc. (a dormant Arizona company) for the periods ended June 30, 2004 and 2003, and the results of operations of a former subsidiary, PT Antam Resourcindo (an Indonesian company), for the three month period ended June 30, 2003.

All inter-company transactions and balances have been eliminated on consolidation.

Mineral properties

The Company capitalizes all acquisition, exploration and development costs related to exploration and development of mineral properties on a property-by-property basis. The costs of abandoned properties are charged to income in the year of abandonment or when it is determined that potential for discovery of economic mineralization is limited.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd.)

The costs of producing properties are amortized using the unit of production method based upon estimated reserves. The amounts recorded as mineral properties represent costs to date and do not necessarily reflect present or future values.

Foreign currency translation

The Company's financial statements translated into Canadian dollars using the temporal method. Under this method, monetary assets and liabilities are translated at the year-end exchange rate and non-monetary assets and liabilities and operating results are translated at the exchange rates prevailing at the dates of the transactions.

Earnings (loss) per share

Basic earnings (loss) per share are calculated by dividing net income (loss) available to the shareholders by the weighted average number of common shares outstanding during the year. Diluted earnings (loss) per share are calculated to reflect the dilutive effect of exercising outstanding stock options by application of the treasury stock method.

Financial instruments

The Company's financial instruments consist of cash, receivables and accounts payable. Management estimates that the fair values of these financial instruments approximate their carrying values.

Stock based compensation plan

The Company has a stock based compensation plan. Compensation expense is recognized for this plan when stock or stock options are issued to employees or directors.

Prior year comparatives

Certain prior year amounts have been reclassified to conform to the current year presentation.

3. DISCONTINUED OPERATIONS

During 2003, the Company signed an agreement with its majority shareholder, PT Antam TBK ("Antam"), whereby the Company, effective from September 30, 2003, would transfer all of its Indonesian mineral property interests to Antam in exchange for, among other things, the surrender Antam of all of its common shares of the Company for cancellation (the "transaction"). The transaction was to be effected in part by the transfer to Antam of the Company's wholly-owned Indonesian subsidiary, PT Antam Resourcindo ("PTAR"), through which the Company holds its Indonesian mineral property interests.

(formerly International Antam Resources Ltd.)

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited – Prepared by Management)

3. DISCONTINUED OPERATIONS (cont'd.)

Prior to the transaction, the Company had 13,943,002 common shares issued and outstanding of which 81.9% or 11,428,571 were owned by Antam. The Company established an independent committee of the board of directors to consider and approve the transaction. The Company received an independent valuation report as to the value of the mineral property assets, and the independent committee retained independent financial advisors to provide an opinion as to whether or not the consideration to be paid by Antam was fair, from a financial point of view, to the minority shareholders of the Company.

The Company transferred 81.9% of the fair value of the Company (primarily the Indonesian mineral properties interests and inventory at September 30, 2003) to Antam in exchange for the surrender by Antam of 11,428,571 common shares of the Company for cancellation. Upon cancellation, the Company had 2,514,431 million shares outstanding and Antam's ownership of the Company was reduced to zero.

The cash remaining in the Company approximated the minority shareholder 18.1% interest in the net asset value of the Company as at September 30, 2003, as determined by the Company's independent financial valuator.

The acquisition by Antam was a "related party transaction" for the purposes of applicable Canadian securities laws and under related party transaction rules. The resulting gain on the sale of \$ 4,171,419, was recorded as a contributed surplus. There are no tax consequences to the Company as there are previously existing non-capital losses against which this gain can be applied.

The operating results of PTAR for the period from January 1, 2003 to June 30, 2003 are included in the consolidated operating results of the Company for the period ended June 30, 2004. These results have been presented as discontinued operations in the statements of operations and deficit and cash flows for the period ended June 30, 2004 and the 2003 statements have been reclassified accordingly.

4. CHANGE IN ACCOUNTING POLICY

Effective January 1, 2002, the Company adopted the recommendations of the Canadian Institute of Chartered Accountants with respect to accounting for stock-based compensation and other stock-based payments to non-employees, direct awards of stock, stock appreciation rights, and awards that call for settlement in cash or other assets. The recommendations have been applied prospectively to all stock-based payments to non-employees granted on or after January 1, 2002 and had no impact to the consolidated financial statements. The fair value of direct awards of stock is determined by the quoted market price of the Company's stock and the fair value of stock options are determined using the Black Scholes option pricing model. In periods prior to January 1, 2002, the Company recognized no compensation when stock or stock options were issued to employees. During 2002 and 2003, no stock options were granted by the Company.

5. MINERAL PROPERTIES***Omineca Mining Division, British Columbia***

On December 18, 2003, the Company entered into an option agreement to acquire a 100% interest in 20 claim units covering an area of 500 hectares in the Omineca Mining Division of British Columbia. The Company can earn an initial 80% interest in the claims by making staged cash payments of \$145,000 and completing exploration expenditures of \$500,000 over a four year period. Upon the exercise of the initial option, the Company has a further option to acquire the remaining 20% by paying \$750,000 in cash or at the discretion of the Company, a combination of cash and common shares of the Company provided that the share component does not exceed 50% of the value of the total payment. An initial option payment of \$20,000 was made upon execution of the agreement.
